

Broadband Survey and Speed Test Released for Businesses, Non-Profits and Local Governments in northwest Missouri

This survey is being conducted by the Northwest Missouri Regional Council of Governments in partnership with the University of Missouri Extension and local economic developers in Atchison, Gentry, Holt, Nodaway, and Worth Counties.

This survey will gather information about internet usage by businesses, non-profits, and local government institutions in our communities. This data will assist planning efforts to expand affordable and reliable broadband access in northwest Missouri. If you own or operate a business in one of the counties mentioned above, please take 5 minutes to complete the survey and speed test at

https://www.allcounted.com/s?did=w215ooya65dju&lang=en_US or use the QR Code to access the survey. All data will be reported in aggregate and no individual information will be shared.
